# INITIA 6

COMPATIBLE WITH  
**NESPRESSO®** SYSTEM

## INITIA 6 THE CHOICE

- Moulded in Polypropilene, the easiest material to handle
- Low operational and investment costs
- Best choice when using a Flowpack
- Our original opening system by Bisio Progetti, makes extraction easier and reduces opening force
- High degree in compatibility with coffee machines
- Patented sealing ring secures the correct positioning inside the brewing chamber and prevents from leaking
- Recommended with coffee, infusions and tea
